

If you could change a life in one hour, would you?

You can help provide life-changing Dog Guides to Canadians with disabilities by participating in the Pet Valu Walk for Dog Guides.

With approximately 300 Walks taking place across Canada, all you need to do is register, fundraise and lace up!

FIND A WALK

Register online at www.walkfordogguides.com or in person at your local Walk. You do not have to participate in the Walk to show your support; you can donate to the Walk, a walker or to a specific Walk location.

FUNDRAISE

Collect donations online or in person using the form on the reverse side of this pamphlet. Be sure to encourage others to fundraise and walk with you!

SUBMIT ALL COLLECTED DONATIONS

You can give donations to organizers at your local Walk, or follow the bank instructions (on the reverse), or return by mail. Each step you take will bring someone with a disability closer to greater safety, mobility and independence!

Canine Vision Dog Guides

assist Canadians (12 years+) who are blind or visually impaired. These Dog Guides are trained to navigate obstacles typically found on daily routes, including curbs, steps, and crowds. With a Dog Guide to help them travel freely and safely, handlers feel self-assured every time they leave home.

Service Dog Guides

help Canadians (10 years+) who have a physical or medical disabilities. These Dog Guides aid handlers in retrieving objects, opening/closing doors and appliances, and are trained to bark or activate an alert system when help is needed.

Autism Assistance Dog Guides

help families with children (ages 3-12) on the autism spectrum. These Dog Guides provide safety, companionship and unconditional love. They offer a calming relief for children in high anxiety situations and reduce the stress commonly experienced in public places.

Thanks for your support!

GIVING CANADIANS A NEW *Leash* ON LIFE

Hearing Ear Dog Guides

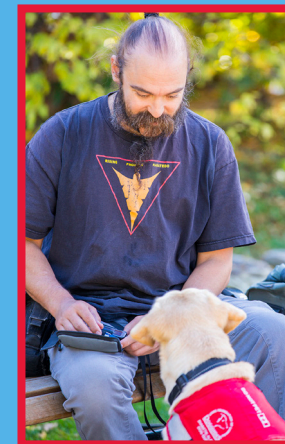

assist individuals (10 years+) who are deaf or hard of hearing, and are unable to detect everyday important sounds. These Dog Guides have been taught to distinguish sounds (doorbell, alarm clock, fire alarm, ringing phone, etc.), make physical contact with their handlers, and then signal which sound is occurring.

Seizure Response Dog Guides

are trained to help people (6 years+) with epilepsy. These Dog Guides are capable of activating an alert system or barking for help in the event of a seizure. Their ability to both respond and react quickly provides their handlers with confidence to live independently.

Diabetic Alert Dog Guides

assist people (10 years+) who have type 1 diabetes with hypoglycemic unawareness. They are trained to detect sudden drops in their handler's blood sugar through scent, alert them so they can ingest something sweet, and avoid a hypoglycemic episode which can lead to life-threatening effects. These Dog Guides are also able to get help or activate an alert system if needed.

Lions Foundation of Canada Dog Guides' mission is to assist Canadians with a medical or physical disability by providing them Dog Guides at no cost.
